

In the Matter of Ashley Children's Corner,
Lymington, Hampshire

DECISION

This reference relates to the question of the ownership of land known as Ashley Children's Corner, Lymington, being the part of the land comprised in the Land Section of Register Unit No. VG.89 in the Register of Town or Village Greens maintained by the Hampshire County Council of which no person is registered under the Land Registration Acts 1925 to 1971 or under section 4 of the Commons Registration Act 1965 as the owner.

Following upon the public notice of this reference no person claimed to be the freehold owner of the land in question, but Mr B J Lloyd claimed to have information as to its ownership.

I held a hearing for the purpose of inquiring into the question of the ownership of the land at Winchester on 26 October 1983. At the hearing the New Milton Town Council was represented by Mr J V Allan, its Clerk, and by Mr F J Osgood, the applicant for the registration in the Land section of the Register Unit.

The land the subject of the reference was allotted and awarded by the Ashley Inclosure Award made in 1862 under the Annual Inclosure Act 1860 to the Churchwardens and Overseers of the Poor of the parish of Milton to be held in trust as a place of exercise and recreation for the inhabitants of the parish and neighbourhood. Since then its ownership has undergone a number of statutory changes.

First, it was transferred to the Milton Parish Council by Section 6 (1) (c) (iii) of the Local Government Act 1894. It next became vested in the former Milton Urban District Council by the County of Southampton (Milton Urban District) Confirmation Order 1926. It then became vested in the former Lymington Borough Council by the County of Southampton Review Order 1932. Then by the Local Authorities (England) (Property etc) Order 1973 it passed to the New Forest District Council. Finally by virtue of the New Forest (Transfer of Properties etc.) Order 1980 it was transferred to and vested in the New Milton Town Council which had been constituted by the New Forest (Parishes) Order 1979. Mr Lloyd kindly put his argument into writing, and a copy of it is attached to this decision.

On the evidence before me I am satisfied that the New Milton Town Council is the owner of the land, and I shall accordingly direct the Hampshire County Council, as registration authority, to register the Town Council as the owner of the land under section 8 (2) of the Act of 1965.

I am required by regulation 30 (1) of the Commons Commissioners Regulations 1971 to explain that a person aggrieved by this decision as being erroneous in point of law may, within 6 weeks from the date on which notice of the decision is sent to him, require me to state a case for the decision of the High Court.

researching into the purpose of stone carving

The language taught in schools was intended for the High Priests and Peerage as a simplified language to enable them to administer religion but not to understand the complex conjugation of the Common Tongue as used in religion and alter it for their own financial gain.

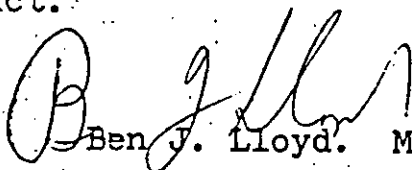

The Legal profession has been educated in the same language to settle disputes between those educated in that language and we note that the ornament of their apparel, their courts and the places where they are educated and their homes and their tombs all indicate that the language of the legal profession is EVIL to man and from the extinct civilisations we read that it causes crime and nations to decline and the decline since it has been taught in Britain forcibly since 1870 is very apparent as is the increase in crime

According to Article 24 of the Church of England we should use a common tongue and we are told that the Scribes and Pharisees could not understand Jesus Christ when he used it. We can see the Common Tongue concealed in all alphabets that originate from gravestones and the Deaf and Dumb have no communication barriers in the world because they make the shapes of the OGHAM alphabet with their fingers.

The House of Commons naturally make laws in the Common Tongue and laws are ratified by the Lords in their language in which the legal profession acts. But all the ciphers and ceremony of the state indicate that the Common Language of the Master Mason rules all as it is the only device for creating law and order.

As no attempt has been made to notify the Common People who speak the Common Language of the world it appear right and correct for the Master Mason to claim all of these lands on behalf of the Commoners the majority of whom can neither read nor write.

I raise no objection to the parish Councils holding these lands for the commoners providing that those on the parish Council have all been educated in accordance with Para 25 (2) of the 1944 education act and I may add as far as I know all those who have attended state schools have been educated contra to this act.
